Treasures report:

Old business:

Cary got a response about switching marine areas 3,4 to selective harvest, in short, the exploitation rate vastly changes other terminal fisheries and season outcomes for multiple areas terminally and marine areas statewide, this topic is stemmed from the closure of Snohomish River summer salmon.

More in depth discussions need to happen with anglers in there affected areas to make sure this is a challenge we want to pursue.

NOF regulations development:

Last year Jonathan Stumpf reached out regarding a backdoor rule in April for spring salmon but actually wanted to put closures on wild steelhead, Doug has sent out a link to the 2024 NOF documents, everyone is encouraged to sift through these documents and look for any changes to WAC's that may have a negative impact to your fishery.

Cowlitz river Tacoma power meeting was on may 8th, a little late notice to attend but if anyone attended, please respond.

The next commission meeting is may 17th, Doug has offered to attend but would like to have another member to join.
